## Career Objective

Aspiring Software Engineer with an MCA (2024) and a strong foundation in full-stack web development, data analytics, and Python programming. Eager to contribute to innovative projects through a Software Engineering Internship where I can grow my technical skills, collaborate with expert teams, and build impactful technology solutions.

## Technical Skills

- Languages:** Python, JavaScript, C, Java (basic)
- Web Development:** HTML5, CSS3, React.js, Node.js
- Databases:** MySQL, MongoDB
- Tools & Platforms:** Git, GitHub, VS Code, Postman
- Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn, Power BI
- Others:** JSON, REST APIs, Excel (VLOOKUP, Pivot Tables)

## Education

Master of Computer Applications (MCA), Acharya Nagarjuna University, Guntur | CGPA: 7.13 (Oct 2022 - Jun 2024)

## Experience

- Loss Prevention Associate** – BigBasket (Innovative Retail Concepts Pvt. Ltd.)  
Hyderabad, India — January & 2025 – Present & 2025
  - Conducted audits across departments including Cold Chain, CCTV, and EV (Electric Vehicle) operations.
  - Created Excel reports to enhance audit tracking and safety compliance
  - Collaborated with cross-functional teams for process improvement

## Projects

- Weather Dashboard Web App**  
React.js, REST API, JSON Server
  - Developed a weather app with current weather and 5-day forecast
  - Integrated OpenWeatherMap API, local storage, and unit toggle features
  - Responsive UI with functional components
- PPE Detection using YOLOv5**  
Python, PyTorch, Object Detection
  - Trained a YOLO model to detect safety helmets and vests
  - Applied to construction safety datasets for real-time evaluation

## Declaration

- Strong problem-solving skills
- Quick learner and self-motivated
- Effective communicator and team player

## Declaration

I hereby declare that all the information provided above is true and correct to the best of my knowledge.
